A three-day oil painting workshop for intermediate to advanced painters

Join Jeff Miller in Santa Barbara to develop your figure painting skills in a studio setting. This multi-level class offers painters advanced and individualized instruction in figure painting. Students will focus on theoretical and technical questions in color use emphasizing ways harmony can be achieved. Anatomy (as it concerns drawing, composition and narrative) will be visited in a more pointed manner. We'll study the difference between drawing and painting, the notion of the implied opposite in composition, and quality in narrative. There will be demonstrations of theory and representational painting. We plan to have a new model each day and, working directly from the model, to do a new painting each day.

Note: Class size is limited. SCAPE's workshops fill early, so register today. You will be enrolled in the order your check is received. Cancellations made at least one month in advance of the workshop will receive a full refund less \$50 administration fee. Thereafter your tuition will be refunded only if your place can be filled.
